LOST PROFITS DAMAGES

FORENSIC ACCOUNTING & FRAUD INVESTIGATION

Kyle Renalds has worked with global and regional accounting firms for 20+ years, providing services in audit, tax and evaluation of internal controls. Most recently, he developed and led a business advisory service line within a large local firm.

Kyle leads our firm in ensuring high-quality delivery of client services. He reviews work product, promotes the use of relevant technology, and evaluates and defines our firm's work product best practices. Kyle also focuses on the professional development of each team member to stay on the cutting edge of client service. As a CPA with a diverse professional and technical background, Kyle's role uniquely blends his people skills with his experience in compliance, internal audit, risk assessment, and project management to bring the highest quality of service to our clients involved in high-stakes litigation.

Kyle's experience includes analyzing complex business processes and data to identify risks, assess their significance, recognize fraud, and state a conclusion. Companies have engaged Kyle to perform internal audits, evaluate the effectiveness of internal controls, and enhance the process of developing robust controls. He has executed operational and information technology-related audit activities and recommended risk and control improvement opportunities.

In a prior CPA firm, Kyle developed the business advisory service line and was the firm's service line leader. He has also co-owned a small CPA firm, providing tax planning, preparation, and advisory services to both individuals and businesses.
